

My local K-LOVE station is on in my car and in my home on a regular basis. It provides me and my family with a variety of Christian music, announcements about concerts and events of interest, and hourly updates on news of interest to us. If we were to lose our K-LOVE station it would negatively impact not only our family but also our community, local Christian businesses which sell Christian music that is introduced to us on our local radio station, Christian music artists that rely on K-LOVE to inform the public about concerts, and many non-profit organizations that are allowed to make announcements about events and services on the station. K-LOVE is efficient and effective in it's service to the community and I have been a financial supporter of this listener supported radio station for the last five years. My family and I are not in favor of the changes that are being considered that threaten the programming as it is now. Thank you. Sincerely, Anita wadley
